Transform a square piece of paper with 12 easy folds to make a sweet Masu box—and then do it again to make a lid. After you learn the Masu, you can keep folding to make a multi-layered “book” with secret pockets. Extremely simple origami taught by a not-even-close-to-expert amateur.

Sharon Fiffer writes, folds paper, knits and makes lots of stuff. Check out storied-stuff.com, show-and-tell-for-grown-ups, created by Sharon and her husband Steve.
